

## What Our Clients are Saying...

*"...we had the good fortune of working with Michelle Boivin over the past few months in the planning and coordination of our Grand Opening Ceremony and website development. Both projects have been a huge success!*

*Michelle is a gem to work with and extremely patient. She was always willing to go the extra mile for us even when aspects of the project most likely went beyond the scope of the original price quote. One of the most unexpected and impressive things was how Michelle stayed in touch with us on a weekly basis and handled any issues with wonderful follow through.*

*Michelle's expertise, integrity and commitment to the customer are exceptional. Rest assured you can trust your company's image with Boivin Communication Group. We will certainly utilize their services again and have already referred others."*

Jennefer Nepinak, Executive Director,  
**Treaty Relations Commission  
of Manitoba**

*"Michelle Boivin provided communications advice, public relations and event planning services for the Centre of Excellence. Michelle's professionalism, attention to detail, and exceptional organizational skills, coupled with her knowledge of what the media is looking for is the foundation of her success. She successfully met our needs by bringing a thorough understanding of what needed to be done while never abandoning the desire to be creative and innovative. And that, concisely, is her real niche. What sets her apart from other firms is her genuine commitment to people and communities. An approach and perspective whose value is immeasurable."*

Darren W. Lezubski, Managing Director  
**Centre of Excellence for Child and Youth  
Centred Prairie Communities, Health  
Canada**

## About Boivin Communication Group:

Boivin Communication Group is a full service communications and event planning company based in Winnipeg, Manitoba Canada.

We specialize in providing creative solutions for Aboriginal, not-for profit, and small business groups across Canada.

A virtual company, we are unique in our ability to bring together the expertise required for any project, big or small. With a network of highly qualified independent consultants in a variety of areas, we provide a viable, affordable alternative to traditional consulting and event planning services.
